

EUTOPIA STAFF OPPORTUNITY!

THIRD ROUND CALL FOR LAUNCHING A EUTOPIA CONNECTED COMMUNITY

In December 2022 the EUTOPIA alliance was granted funding for continuing their work in the European University Initiative. EUTOPIA MORE (2022-2026) is the follow up to the successful pilot project EUTOPIA 2050.

It allows for the deepening of cooperation between 10 European universities and global partners:

Universitat Pompeu Fabra Barcelona, University of Ljubljana, Vrije Universiteit Brussel, University of Warwick, University of Gothenburg, CY Cergy Paris Université, Babeş-Bolyai University in Cluj-Napoca, Ca' Foscari University of Venice, Technische Universität Dresden, NOVA University Lisbon, Monash University, Université Internationale de Rabat, Stellenbosch University, Kyungpook National University, Universidad de los Andes and Arizona State University.

EUTOPIA MORE is looking for enthusiastic members of academic staff who are willing to pilot cross-institutional Connected Communities, and to cooperate with their topical counterparts across the alliance.

Connected Communities aim to enable a different learning and research experience by involving staff, students, and external stakeholders in a participatory and co-creative process. More specifically, participating in CC's will improve your:

- International exposure for learning and research
- Insight on developments in the Higher Education and Research area
- Potential for (inter)national calls and funding
- Recognition of international efforts for staff and students

If you are interested in becoming part of this strategic program, then **please complete the attached Letter of Commitment.**

This is the last chance for applying to become a leading academic for a EUTOPIA Connected Community in the EUTOPIA MORE Project.

Completed applications need to be submitted by **Friday 31st January 2025.**
